C++/Python Developers

The KNOSSOS team at Max-Planck-Institute of Neurobiology is looking for Computer Science students with C++ and Python experience.

You will work on KNOSSOS—a scientific application that is used for annotating 3D images of the brain.

Requirements

- Student of Computer Science (or similar)
- Experience with C++
- (Optional) Familiarity with Qt
- (Optional) Familiarity with OpenGL
- Experience with Python 2 and 3

Application

You will work in a team of other Computer Science students with very flexible working hours (40h–80h/month), and the possibility to work from home.

If you are interested, write a short introduction to knossos-team@mpimf-heidelberg.mpg.de
